Main research field: Health Sciences

Sub research field: Chronic kidney disease

1. In a meeting the Board of Directors of ICETA has decided to open an international call for PhD holder Researchers, under a work contract for a non-fixed term. This announcement is intended to 1 (one) research position (**Reference ICETA 2022-02**) to pursue scientific research activities, in the area of Health Sciences, sub-area of Chronic kidney disease, under a work contract for a non-fixed term, aiming the development of studies to identify early biomarkers of the disease; biomarkers of disease at the Research Unit on Applied Molecular Biosciences (UCIBIO) - UIDP/04378/2020, with the financial support of the FCT/ MCTES through national funds, aiming the development of studies to identify early biomarkers of the disease; biomarkers of disease progression and monitoring; assessment of the predictive value of these biomarkers in mortality risk; application of these biomarkers to evaluate renal toxicity induced by contrast agents. The studies will be carried out in chronic kidney disease patients on dialysis treatment, patients at different stages of the disease and in animal models of chronic kidney disease induced by nephrectomy. It is also intended to develop bioactive and biocompatible dialysis membranes to reduce the inflammation and oxidative stress associated with dialysis therapy.

2. Applicable Legislation

Decree-Law no. 57/2016 of August 29th, amended by Law 57/2017 and Regulatory Decree No. 11- A / 2017 which approved the doctorate hiring regime destined to stimulate scientific and technological employment for all knowledge areas (RJEC); Portuguese Labour Code, approved by Law 7/2009 of February 12, in its actual form.

3. Pursuant to article 13 of RJEC, the tender selection panel is be formed by: Alice Santos Silva (Professora Associada com Agregação, Faculdade de Farmácia, Universidade do Porto, chair of the jury by delegation of the Director of ICETA); Luís Belo (Professor Auxiliar com Agregação, Faculdade de Farmácia, Universidade do Porto); e Cristina Catarino (Professor Auxiliar, Faculdade de Farmácia, Universidade do Porto).

4. The workplace shall be at Faculdade de Farmácia, Universidade do Porto.

5. Monthly remuneration to be paid is the one set by article 23 (3) of RJEC, corresponding to level 33 of the Single Salary Table, approved by Order no. 1553-C/2008 of December 31st, i.e. 2.153,94 Euros.

6. Application can be submitted by any national, foreign and stateless candidate(s) holding a doctorate degree in Pharmaceutical Sciences, Biochemistry, Biology.

In case the doctorate degree was awarded by a foreign higher education institution, it must comply with the provisions of Decree-Law no. 341/2007 of October 12th, and all formalities established therein must be complied with at the signature of work contract.

7. The tender admission general requirements are those defined in the previous point 6, and additional specific requirements are prior experience in the area of chronic kidney disease; in processing biological samples; in hematological studies (hemogram, enzyme activity studies); biochemical (biomarkers of inflammation and oxidative stress; of hepatic and/or renal injury); in molecular studies

(gene expression and genotyping), in immunocytochemistry and flow cytometry analysis. Experience preparation of dialysis membranes and in the evaluation of biocompatibility of dialysis membranes.

8. Pursuant to article 5 of RJEC, the selection is to be made based on the evaluation of the scientific and curricular career of the candidate.

9. Scientific and curricular career evaluation focuses on relevance, quality and up-to-datedness:

a) of scientific or technological production in the last five years, considered most relevant by the candidate;

b) of research activities, fundamental or applied science, developed in the last five years, considered of higher impact by the candidate;

c) of knowledge extension and dissemination activities developed in the last five years, namely under the scope of the promotion of culture and scientific practices, deemed most relevant by the candidate.

d) of activities of science management, technology and innovation programs, or of experience in observing and monitoring the scientific and technological system or higher education, in Portugal or abroad.

10. The five-year period mentioned above can be extended by the panel, if requested by the candidate, whenever the suspension of scientific activities is reasoned by socially protected grounds like paternity leave, long-term serious illness, and other legal situations of unavailability to work.

11. Evaluation criteria are the following:

The evaluation of the CV of the candidates, in particular the scientific merit and research experience will take into consideration the elements presented for the last five years of activity falling within the scope of the specific areas of the tender (see Point 1) and will be performed according to the following criteria:

11.1 Integrated assessment of the curriculum trajectory of the candidate, based on an overview of their scientific merits, namely:

I. Overall scientific coherence of the CV – 15%

II. Diversity and quality of scientific indicators, including relevant published peer-reviewed articles, in the specific areas of announce (see point 1) or demonstrating relevant technical expertise - 20%

III. Contribution to research projects in the area of chronic kidney disease - 15%

11.2 Relevant experience, proved in CV, in:

I. Chronic kidney disease 15%

II. Hematological, biochemical and molecular studies applied to chronic kidney disease 10%

III. Dialysis membrane preparation 15%

IV. Dialysis membranes biocompatibility evaluation 10%

Only candidates who obtain a classification equal to or greater than 50% in the parameters indicated at points 11.1 and 11.2 will be eligible.

12. In the case of admitted candidates whose evaluation does not differ more than 10% from that obtained by the best positioned candidate, the jury will interview the best positioned candidate and the candidates in this situation. This will be aimed at obtaining clarifications and explanations about the curricular elements and additional information as well as to evaluate the attitude profile and motivation of the candidate.

The final score of each jury member is obtained by the following assessment: 90% scientific and curricular career evaluation and 10% interview.

13. Candidate final classification system shall be given based on a scale 0 to 100.

14. The panel shall deliberate by means of roll-call vote justified under adopted and disclosed selection criteria, with no abstentions allowed.

15. Minutes of panel meetings shall be executed and include a summary of all occurrences of said meeting, as well as of all votes casted by the members and respective reasoning, and shall be provided to candidates whenever required.

16. After selection criteria application, the panel shall prepare a sorted list of approved candidates and respective classification.
